

Israel Internet Association (ISOC-IL)
איגוד האינטרנט הישראלי ע"ר

Dear ISOC colleagues,

The Israel Internet Association (ISOC-IL) has the pleasure of inviting ISOC Chapter representatives, NGOs, experts and other stakeholder of interest to the Israeli events and exhibit taking place in WSIS-Tunis. You are cordially invited to participate in the following events, aimed for sharing of experiences and enhancing cooperation.

eInclusion: Bridging the Digital Divide

15 November, 2005, 12:00-13:30

ICT4All Exhibition, Conference room Expo4

In this event we will share experiences and discuss initiatives of the civil society, private sector, NGOs and governmental bodies in bridging the digital divide. We would like to develop a discussion on the appropriate ways of intervention in the local and national levels regarding the challenge of e-Inclusion.

Children for Bridges– Children and ICTs

16 November, 2005 12:00-13:30

ICT4All Exhibition, Conference room Expo6

This special event will deal with various themes of **Children and Technology**. The first part will discuss projects that bridge children back with society in various aspects: disabled children and the general learning environment, inter-generation bridge and children in remote locations. We will briefly demonstrate three sample, related projects. The second part will consist of a panel discussion on “**Safe Internet for Children**” and will focus on perils in cyberspace and online behavior of children – issues like pedophilic content, adult material, drugs, addictions and more.

Goal: to induce brainstorming consisting of views from many countries and cultures, and to share experience and knowledge on these subjects.

Output: A white paper encompassing the discussions which will be distributed later on.

How can you participate? Share your projects, learned experience and ideas that you wish to contribute to the discussion. Let us know in advance by sending an email to wsis-wg@isoc.org.il and we would incorporate you into the discussion.

eGovernment to eHealth.

18 November, 2005, 10:30-12:00

ICT4All Exhibition, Conference room Expo4

In this seminar we will give strong attention to the discussion of eGovernment and various issues that surround it, Such as providing enhanced information systems which will improve IT usage among governmental bodies on one hand and accessibility to information and services to the citizens on the other hand. The seminar will also discuss the role of the government in eHealth and explore some innovations in the market of eHealth, as well as the issues of the security of critical information assets

Finally, we will present the eight winners of the WSA-Israel contest.

Throughout the Conference (14th-19th November, 2005)

We welcome you to visit us and experience our **Pavilion**, which exhibits various aspects of the information society: eCulture, eLearning, eGovernment and more...

Location: ICT4All Exhibition, pavilion No. 1114

If you wish us to keep you updated on these events, or require more information, please contact us at wsis-wg@isoc.org.il

Best Regards,

Dr. Amir Etziony

President

Israel Internet Association (ISOC-IL)
