Chapter Application

A. Proposed name of the Chapter

1) Internet Society – India Chennai Chapter (ISOC Madras)

B. Community of Interest the Chapter will to serve

Geography: All of Tamilnadu, Bangalore and parts of Kerala

Other Defined Group: Non Resident Indians of the above geographical origin, with an interest in the evolution of the Internet.

C. Purpose and Scope of Chapter

Primary Purpose and Scope

The primary purpose is to be a part of the worldwide Intenet Society (ISOC) in its activities of maintaining and extending the development and availability of the Internet and its associated technologies and applications - both as an end in itself, and as a means of enabling organizations, professions, and individuals worldwide to more effectively collaborate, cooperate, and innovate in their respective fields and interests.

To examine key issues and offer conceptual and technical inputs to ISOC and where possible offer onsite and offsite services to ISOC

for the development, maintenance, evolution, and dissemination of standards for the Internet and its internetworking technologies and applications;

for the growth and evolution of the Internet architecture;

for the maintenance and evolution of effective administrative processes necessary for operation of the global Internet and internets;

in education and research, collarborative or independent, related to the Internet and internetworking;

for the harmonization of actions and activities at international levels to facilitate the development and availability of the Internet;

in collection and dissemination of information related to the Internet and internetworking, including histories and archives;

in assisting technologically developing countries, areas, and peoples in implementing and evolving their Internet infrastructure and use;

in liaising with other organisations, governments and the general public for coordination, collaboration, and education in effecting the above purposes.

Secondary Purpose and Scope :

Serve the people of the region and the defined group by working through government, non-governmental agencies, private corporations and academic institutions to cause greater and world class access to the internet for the growth of the nation and for the benefit of all sections of society.

List of Supporters

ISOC Madras would formally approach corporations, govenmental bodies and institutions both from within ISOC's global member base and from outside to sponsor ISOC Madras activities after the chapter is approved and formalized.

Initial pre-chapter formative efforts are sponsored by Isolated Networks which would support the first meeting and other preliminary activities until formal, larger sponsors are committed.

Possible sponsors to programs are Information Technology companies, Academic Institutions, government agencies such as National Association of Software and Service Companies (NASSCOM), the Ministry of Information Technology and a few relevant Non Governmental Agencies. ISOC Madras would invite sponsorships both from ISOC member and non-member establilshments.

List of Requirements

ISOC Madras is to be registered as a Society under the Society's Act.

G. Additional Information

The chapter would be in a position to help create a collaborative chapter and individual members' portal with a suitable site architecture with a minimal funding support from ISOC or from a sponsor.
