

Seven Leadership Positions Open in 2020

ICANN BOARD OF DIRECTORS

ICANN's Board of Directors exercises the powers of ICANN, controls its property, and directs its business. Directors are duty-bound to act in what they reasonably believe are ICANN's best interests – not as representatives of the entities that selected them, their employers, or any other organizations or constituencies. Directors are expected to support the ICANN mission and pursue ICANN's core values. The Nominating Committee selects eight Board members who serve staggered terms.

ALAC

The **ALAC** considers and gives advice on ICANN activities related to the interests of individual Internet users. ALAC members may represent their individual interests or the interests of not-for-profit or for-profit entities. The key is that they act as individuals. The Nominating Committee chooses five ALAC members – one from each of ICANN's geographical regions – who serve staggered terms.

**COUNTRY CODE NAMES SUPPORTING
ORGANIZATION (ccNSO) COUNCIL**

GNSO

The **GNSO** develops and recommends to the Board substantive policies for generic top-level domains (gTLDs). The GNSO Council consists of members from constituencies representing particular groups of stakeholders who manage the GNSO's policy development and administrative processes. The Nominating Committee chooses three Council members who serve staggered terms.

ccNSO

The **ccNSO** develops and recommends to the Board global policies for country code top-level domains (ccTLDs) and develops consensus across the ICANN community. It promotes operational and technical cooperation among ccTLD managers. The ccNSO Council administers the affairs of the ccNSO and manages the development of policy recommendations. The Nominating Committee chooses three ccNSO Council members who serve staggered terms.
